Email: raj08azm@gmail.com

Mobile: +91-6307340152

SKILLS

Languages:	Python, Java, C++, C, SQL
Frameworks:	Streamlit, Flask, FastAPI, NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn, Werkzeug
Tools/Platforms:	Power BI, Excel, GitHub, Power Query, VS code, PyCharm, Kaggle, Ubuntu
Databases/Big data:	DBMS, MongoDB, MySQL, SQLite3, Hadoop
Soft Skills:	Analytical Thinking, Problem-Solving, Communication Skills, Adaptability

PROJECTS

Student Placement Tracker System <i>Python, Streamlit, SQLite3, HTML, CSS, UI/UX, Figma</i> GitHub	Jul' 26 - Aug' 26
- Developed a web-based Student Placement Tracker to streamline campus recruitment, enabling students to apply for drives and placement officers to manage placements. - Implemented skill matching, PDF offer letter generation, input validation, and real-time updates, improving placement management efficiency and user experience. - Designed a responsive user interface with HTML, CSS, and Streamlit improving user experience through real-time updates and efficient placement workflow management.	
Credit Card Default Prediction System <i>Machine Learning, NumPy, Pandas, Scikit-learn</i> GitHub	Feb' 26 - Mar' 26
- Achieved 82% prediction accuracy by implementing and evaluating machine learning classification algorithms for credit card default risk analysis using Scikit-learn and Python. - Processed and analyzed financial datasets using preprocessing, feature scaling, missing value handling, and exploratory data analysis (EDA). - Built a credit card default prediction system with Pandas, NumPy, and Scikit-learn, integrating data visualization, model evaluation, and predictive analytics for accurate financial risks.	
Global Armed Conflict Overview Dashboard <i>Power BI, Power Query, DAX, Visualization</i> GitHub	Jan' 26 - Feb' 26
- Processed and analyzed 5k+ global conflict records using Power BI, Power Query, and DAX to identify trends, high-risk regions, and intensity patterns. - Built interactive dashboards by cleaning and transforming conflict datasets, enabling effective visualization of conflict types, affected regions, and analytical insights. - Derived actionable insights to support improved resource planning and strategic decision-making.	

TRAINING

Data Structures And Algorithms LPU	Jun' 25 - Jul' 25
- Learned core Data Structures and Algorithms concepts with practical coding implementations. - Solved real-world programming problems to improve logic building and optimization skills. - Secured grade 'A' for outstanding performance in the summer training program. - Solved 500+ challenging problems across multiple platforms, improving problem-solving skills.	

CERTIFICATES

Privacy and Security in Online Social Media NPTEL	Nov' 25
The Bits and Bytes of Computer Networking Google	Sep' 25
ChatGPT- 4 Prompt Engineering Generative AI & LLM INFOSYS	Aug' 25
Object Oriented Programming NeoColab	Dec' 24
Legacy Responsive Web Design V8 Free Code Camp	Oct' 23

ACHIEVEMENTS

Achieved 1421 Contest Rating on Leet Code (Top ~30% globally).	Feb' 26 - Present
Completed 100+ active days of consistent coding practice across different platforms.	Oct' 25 - Present
Earned multiple coding badges on Hacker Rank in C, C++, Java, and Python.	Sep' 25 - Present
Secured 3rd position in Code-A-Hunt Hackathon , demonstrating coding and analytical skills.	Jan' 24 - Jan' 24

EDUCATION

Lovely Professional University	Phagwara, Punjab
Bachelor of Technology	Aug' 23 - Present
Computer Science and Engineering; CGPA: 6.60	
S.P Inter College	Azamgarh, Uttar Pradesh
Intermediate	Mar' 22 - May' 23
Percentage: 71%	
Cross Belly International School	Azamgarh, Uttar Pradesh
Matriculation	Mar' 20 - May' 21
Percentage: 60%
